-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

First Office Action on the Merits

Election/Restrictions

1. Applicant's election with traverse of Group I, claims 1-6 in the reply filed on December 16, 2005 is acknowledged. Applicant failed to provide a reason for the traversal.

The requirement is still deemed proper and is therefore made **FINAL**.

2. The examiner notes that the species elected in the reply dated December 16, 2005 was not encompassed by the genus recited by Group I. Applicant on March 3, 2006 elected the species of 5-androstene-3 β ,7 β ,17 α -triol found in claim 5 of the present application.

3. Based on applicant's election, claims 2-4, 6 and 28 stand withdrawn from further consideration as being drawn to a nonelected invention. Claims 1 and 5 will be examined according to MPEP § 803.02.

Priority

4. Acknowledgment is made of applicant's claim for foreign priority based on an application filed in Sweden on March 13, 2001. It is noted, however, that applicant has not filed a certified copy of the foreign application as required by 35 U.S.C. 119(b).

Claim Rejections - 35 USC § 112

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

6. Claim 1 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The instant claim is indefinite for the following reasons:

The instant claim recites (a) the phrase "such as" and the term "including" and, thus, is indefinite because it is unclear whether the limitations following the phrase/term are part of the claimed invention. See MPEP § 2173.05(d) and

(b) the phrase "any other group that forms an ester with an inorganic or organic acid" and, is indefinite because it is unclear what is encompassed by said phrase.

Claim Rejections - 35 USC § 102

7. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

8. Claims 1 and 5 are rejected under 35 U.S.C. 102(e) as being anticipated by Ahlem et al. (US 6,667,299).

Ahlem et al. teach a generic group of steroid derivatives, such as 5-androstene-3 β ,7 β ,17 α -triol, having a number of therapeutic and non-therapeutic applications, including their use as immune modulators (see attached Abstract, RN 459812-86-3; col. 1, lines 11-19; col. 4, line 4 – col. 7, line 33; especially Table B, compound #1.2.5.2, col. 53, Group 2 and col. 68, lines 11-15). The compound taught by the reference is encompassed by the instant claims.

Telephone Inquiry

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Barbara P. Badio, Ph.D. whose telephone number is 571-272-0609. The examiner can normally be reached on M-F from 6:30am-4:00pm.
